

## Putting It All Together: Your Farmland Access Plan

The farmland search process can take many different forms, depending on the goals and situation of the land seeker. Your plan will continue to change and require adjustments as you move through the process. Now that you have spent time thinking about the process of your land search, what are the areas that you will focus on the most? What are the tasks that you need to do in each of these areas to move towards your farm access goals?

The goal of this worksheet is to have a place to summarize your current priority areas and list your tasks to enable easy tracking. Review the worksheets you've completed, then list the areas that you plan to focus on and what tasks you will do to move towards your goals (Consider tasks in the following areas - farm visioning and priorities, farm skills, financial preparations, business planning and farmland search plan.).

	Which priority area(s) will be your focus?	What are resources you will pursue or next steps you will take?	How much time will you commit to this (in coming days, weeks, months)?
In the next 3 months			
In the next 6 months			

	Priority area(s)	Resources/next steps	Time commitment
In the next year
